Annual Membership Application Form

About Us :-

The Aviation Museum has a unique collection of British aircraft from the "golden age" of British aircraft manufacture. From the end of WWII until the 1970's British aircraft designers produced some of the most innovative and advanced aircraft of the day. From post war to cold war, this museum clearly shows that timeline in aviation terms. In this collection there are examples from the major manufacturers of this period. Your support enables us to restore and preserve these aircraft in a manner befitting their importance and to keep part of British history alive.
